**About the Design**

The LD Grotesk type family is a classic sans serif typeface based of the founding thoughts of the LD Moderne Antiqua. The forms are influenced by some great type designs of the era of industrialisation. The LD Grotesk is meant to complete the LD Moderne type system with a sans serif matching the classic modern style approach of the LD Moderne Antiqua and LD Moderne Antiqua Slab type families.

The LD Grotesk family is designed as a group of six weights and three widths, each with a dedicated oblique version. The LD Grotesk Family offers Pan-European language support, three figure sets, small caps, fractions and much more fancy stuff for the contemporary type-user.

**The Miserable Thing About Software**

The font software has been tested by the Lazydogs Typefoundry in all conscience. The functionality of font software though is strongly dependent of the application using it and additionally installed software tools. Possible conflicts with installed software may occur and cannot be prevented. For information concerning this matter please consult this documentation or contact us for further questions.

## LOOKING FOR A MATCH TO GO WITH LD GROTESK?

**Try this super family: LD Grotesk, LD Moderne Slab, LD Moderne Antiqua & LD Moderne Antiqua Fat**
***A system of variety***

LD Grotesk, LD Moderne Slab, LD Moderne Antiqua and LD Moderne Antiqua Fat are all part of an extensive type system created by Kai Büschl. The 51 individual fonts offer a variety of weights, widths and styles: they range from Display to Caption styles, and from linear, upright Grotesk fonts to elegant, modern Old-Style italics – this wide variety of expressions and the possible area of application these families cover are held together by matching metrics. Differentiate voices, and create lively designs, while keeping your layout files tidy, even for complex typographic projects: the diversity of style and consistency of dimensions make this superfamily not only a breeze to combine, but a joy to play with!
